| 1 | 12.1    |

**APPLY CUSTOM REUSABLE FUNCTIONS  
ACROSS MEASURES AND COLUMNS IN  
YOUR POWER BI SEMANTIC MODEL**

```
1 Custom function =
2 ApplyTaxRate( // Function that can be defined once within your semantic model, and then reused across measures and columns
3     SUM('MOCK_DATA mensen met mail en IP (van SSIS cursus)')[id], // First argument of the function ApplyTaxRate: amount where tax rate has to be applied
4     0.21 // Second argument of the function ApplyTaxRate: tax rate
5 )
```

| Amount | Custom function |
|--------|-----------------|
| 1      | € 1,21          |
| 2      | € 2,42          |
| 3      | € 3,63          |
| 4      | € 4,84          |
| 5      | € 6,05          |
| 6      | € 7,26          |
| 7      | € 8,47          |
| 8      | € 9,68          |
| 9      | € 10,89         |
| 10     | € 12,1          |
| 11     | € 13,31         |
| 12     | € 14,52         |
| 13     | € 15,73         |
| 14     | € 16,94         |
